

Sunshine Rally Scatter Treasure Hunt

We have kept the treasure hunt short this year to allow plenty of time to participate and return to the showground for the show and shine car show.

There are only 4 venues and they are reasonably close together, nothing is too difficult to spot and all the images were taken within 100 metres of the recommended stopping place.

Scoring, we will be taking a cue from our friends from Norfolk and this will probably be the deciding factor in determining the winner.

1 point for correctly identifying the, location, structure or house name / number on which each of the individual images are located

2 points for each Triumph photographed stationary at each location, your own car excluded.

5 points for each Triumph photographed travelling/driving on the road, safety first make sure your passenger is on the ball if photographing from your moving vehicle.
